Serial No. 1

From the C.C.F.

No S2-20-151-39/40 dt 4th Aug 39.

Requesting sanction for the acquisition of the waste lands measuring 23 acres & 4 guntas adjoining the Research Laboratory for Conducting botanical experiments which form an essential part of the Laboratory work.

1) The land which the C.C.F wants for the Research Laboratory forms part of the land given free to the Indian Institute of Science and placed at the disposal of the governing body of the Institute, the jurisdiction thereon being ceded on the same terms as over the Assigned tract of the C & M station, Bangalore (vide pages 64, 68 & 84 of the printed papers relating to the formation of the Institute of Science. Further refrence in this connection are being traced. Meanwhile the Director of the Institute will, if agreed, be requested to state if the area required will be spared for the Forest Research Institute. A draft also is put up for approval or other orders

No. C 10-2124 dt 15-1-1944.
Furnishes the information called

146) Subd. 2 the Notification dated 14-3-1907 lands measuring 3.71 acres and 16 had been assigned to the Governor-Gene in Council for the purpose of locating th Indian Institute of Science. In the Notifn dated 5-6-1943 the land measuring 89 acres

W. GM 232-06-9)

S GM 146-42-1)

10 guntas were relinquished by the Indian Institute of Science in favour of the Govt of Mysore. The Residency requested for the supply of two copies of a map showing the area of the Institute as reduced by the retransfer of about 19 acres of the land to the Govt of Mysore. (P.D. No. 147) The Revenue Commissioner while forwarding copies of the map in question, has brought to the notice of Govt. in his letter dated 21-10-43 that the actual measurement of the retransferred area is found to be 21 acres and 32 guntas as against about 19 acres mentioned in the Notification dated 5-6-1943. He consequently requested sanction of Govt. to the modification of the Govt. Notification dated 5-6-1943 as regards the extent only and also to the constitution of the retransferred area into a separate village named "The Mysore Forest Research Institute". On enquiring whether the area of the lands in possession of the Institute after the retransfer was also recently measured and found to be 369 acres and 8 guntas, the Revenue Commr has since stated that the Commissioner for Settlement and Land Records has reported that the area set apart for the Institute was

PUDT

X S.

X S.

PUDII

surveyed in 1927 and that according to the abarband prepared at the time the area is 391 acres. It is added that if the area of the retransferred land, viz., 21 acres and 32 guntas, is deducted from the abarband area, the area in possession of the Institute will be 369 acres 8 guntas. The Revenue Comr. has requested that correct particulars as now furnished by the Commissr for Settlement may be embodied in the revised notifications to be issued (148). In the above circumstances, it is for kind consideration if the authorities of the Indian Institute of Science and the Residency may be addressed and intimated about the necessity for issuing a modified Notification about the areas of the retransferred and the remaining portions of the land

BD 24/1/44

(149) The circumstances in which the discrepancy arose have been explained in P.V.D.'s above enclosure. It is stated that as per actual measurements, the area comes out to be 21a 21g and not 19a 10g as notified in the Notification dated 5.6.43 and that the authorities concerned of Indian Institute of Science have agreed that this area might be treated as not re transferred back. It would be

From the Revenue comr.

No. C10-2124/43-44 Dt. 15-4-43

forwards a copy of the report dated 20-9-43 of the D.S.O., Vizag, and states that the draft Notification will be sent shortly.

135) Subd according to the Notification dated 14-3-1907 and 5-6-43 the area of the land assigned to the Governor-General of India in council is 3-71 acres and 16 guntas (approximately). In the letter dated 24-9-43 of the supdt of Land Records, Survey and Settlement, it is stated that the extent of the retransferred area comes to 21 acres and 32 guntas, and that the area of the lands in possession of the Indian Institute of Science after this retransfer will be 369 acres and 8 guntas. In the maps sent by the Revenue comr all the above said areas have been mentioned. If this were to be the case, then while making reference to the Indian Institute of Science and the Govt of India, the variation in the extent of the lands in possession of the Institute after the retransfer will also have to be intimated.

136) But in the report dated 20-9-43 of the D.S.O., there is no reference to the 369 acres and 8 guntas referred to in the letter of the Supdt of Land Records. The Revenue comr has also

Final Note by the Minister for Education.

Subject.— Retransfer of certain lands assigned to the Indian Institute of Science.

In the Government Notification dated 14th March 1907, the exclusive management and full jurisdiction over the lands described in the schedule annexed to the said notification, measuring approximat ly 371 acres and 16 guntas were assigned to the Governor-General of India in Council for the purpose of locating the Indian Institute of Science with effect from 14th March 1907 for the period the lands were used for the purpose intended.

The Chief Conservator of Forests proposed in August 1939 that an extent of 23 acres and 4 guntas of land out of the above lands assigned to the Institute may be acquired for conducting sylvicultural experiments as there was no vacant land adjoining the Forest Research Laboratory for the purpose. As this land was of no use to the Indian Institute, and as it was also heavily eroded for want of protective vegetation, the Institute authorities were consulted as to whether they would agree to the retransfer of the land in question to this Government in the interests of the development of research work. The Registrar of the Institute replied stating that the matter was placed before a meeting of the Council of the Institute on 20th November 1939 and that it was resolved by them that they had no objection to the retransfer of an extent of about 19 acres of land provided the Government of India agreed to the proposed transfer.

The Residency were accordingly apprised of the above fact and were requested to move the Government of India in the matter and

(F.N.—contn.)

and obtain their consent to the transfer to this Government of the land in question measuring 19 acres for the use of the Forest Research Laboratory. The Residency intimated in April 1940 that His Excellency the Crown Representative with the concurrence of the Government of India was pleased to sanction the retransfer to this Government of the management and jurisdiction of the land referred to above. The plot of land in question has since been taken over by the Forest Department.

It is now proposed to issue a notification regarding the retransfer of the land. The connected file of papers as well as the draft notification proposed to be issued is submitted for His Highness' gracious perusal.

Secretary to the Government
of H. H. the Maharaja of Mysore,
Bangalore.

GEN. & REV. SECTT. 5 AUG. 1939 AGTL. & FOREST BRANCH.

GENERAL SECRETARY. 5 AUG. 1939

RE:- Acquisition of waste lands adjoining Forest Research Laboratory- Malleswaram, Bangalore City.

Sir,

I have the honour to forward herewith, a copy of letter No.46 dated the 28th July 1939 received from the Forest Mycologist urging for the acquisition of the vacant space of land adjoining the Laboratory premises and stated to belong to the Indian Institute of science.

As stated by the Forest Mycologist, there is no vacant land ~~attested~~ attached to the laboratory for conducting sylvicultural experiments which form an essential part of the Research Laboratory work. The land as shown in the sketch forwarded herewith and marked green therein measures 23 acres 4 guntas and is stated to be of no use to the Indian Institute of science and it is being heavily eroded for want of protective vegetation.

I request that sanction of Government may kindly be obtained for the acquisition of these lands for the aforesaid purposes and communicated to me.

I have the honour to be,
Sir,
Your most obedient servant,

Chief Conservator of Forests.

Letter No.46 dated the 28th July 1939 from the Forest Mycologist, Bangalore to the Chief Conservator of Forests in Mysore, Bangalore.

RE: Acquisition of waste land adjoining Forest Research Laboratory.

In submitting herewith a map in duplicate of vacant waste land adjoining the Forest Research Laboratory, I have the honour to state that, as you are kindly aware, there is at present no vacant space in the laboratory premises available for conducting any sylvicultural experiments which form the back bone of all forestry Research. In fact there is hardly any room to have even experimental nurseries of the important economic forest plants as laid down in the programme of the Forest Research Laboratory work.

If the part of the vacant waste land which amounts to 23 acres- 4 guntas (marked green in the enclosed map) which lies adjacent to our Laboratory and which belongs to the Indian Institute of Science grounds should be made available to the Forest Research Laboratory much useful scientific work could be done in the form of systematic planting and sylvicultural study. In addition the grounds which are at present unsightly and in a ruinous condition with bad erosion and ravines, will be covered up with suitable vegetation to bind the loose soils which are silting the sankey's tank, the main source of water supply to the Palace Orchards and Gardens. This portion of the grounds are apparently of no practical use to the Indian Institute authorities and if they are allowed to remain as such without reclamation, the grounds will rapidly deteriorate beyond betterment. The only hope of binding the exposed and bare areas is by judicious planting.

I therefore request you sir, to be kind enough to address the Government, for the kind acquisition of these waste lands

P.T.O.

so that the same may be utilised for scientific purpose by the Forest Research Laboratory and at the same time prevented from further detericration of the area which cannot be made use of in any other way.

Copy

Chief Conservator of Forests.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat

No. A 7855/ne

Dated, Bangalore, 7th September 1939.

From

The General Secretary to the Government of His Highness the Maharaja of Mysore.

To

The Director,
Indian Institute of Science,
Bangalore.

Sir,

You are no doubt aware that the Forest Department of the State have opened a Forest Research Laboratory close to the Indian Institute of Science. The Chief Conservator of Forests in Mysore reports that there is no vacant land attached to the Laboratory for conducting sylvicultural experiments which form an essential part of the Research Laboratory work and suggests that a portion of the land adjoining the Laboratory but assigned to your Institute measuring 23 acres and 4 guntas as shown in the sketch, forwarded herewith, may be used for the purpose if it can be made available. As the land in question may not be of much use to your Institute, being heavily eroded, as it is, for want of protective vegetation, I am directed to state that this Government will be glad if the authorities of the Institute will kindly agree to retransfer the land to the Mysore Government in the interests of the development of the research work undertaken by them.

The plan may kindly be returned along with your reply.

I have the honour to be,
Sir,
Your most obedient servant,

General Secretary to Government.

GENERAL SECRETARY 22 FEB. 1940

Sir,

Subject:- Acquisition of waste lands adjoining Forest Research Laboratory,Malleswaram, Bangalore City.

In continuation of my letter of even number dated the 4th August 1939, on the subject, I have the hono to forward herewith copies of letters No.99 and 1029 dated the 13th and 14th instant respectively received from the Forest Chemist stating that the Institute Council have approved of the grant of land measuring 19.25 acres for th use of the Forest Research Laboratory and to request that further action to get the land transferred may kindly be caused to be taken. The blue-print showing the locality referred to in the Forest Chemist's letter is enclosed her in for reference.

I have the honour to be,
Sir,
Your most obedient servant,

Chief Conservator of Forests.

D.O.letter No.99 dated the 13th February 1940 from the Forest Chemist, Forest Research Laboratory, Bangalore, to the Chief Conservator of Forests in Mysore, Bangalore.

I called on the Director, Indian Institute of Science, this morning in connection with the proposed transfer of Institute land adjacent to the Forest Research Laboratory. The Director said that the Institute Council had approved handing over to us this block of land unconditionally i.e. without any stipulation as to lease etc. He was good enough to give an official blue-print of the lands showing that an area of 5.78 acres adjoining the Munireddypalyam-Institute road will be retained by the Institute, the remaining 17.32 acres being proposed to be given away. The Director came to me understand that the delay in the matter was due to certain surveying errors involving the exact measurement of the areas in question.

I submit herewith for favour of kind perusal the map given by the Director.

Letter No.1029 dated the 14th February 1940 from the Forest Chemist, Forest Research Laboratory, Bangalore, to the Chief Conservator of Forests in Mysore, Bangalore.

In continuation of my D.O.letter No.99/1 dated the 13th February 1940, I have the honour to submit herewith a copy of letter No.H3.251 dated the 14th February 1940, received from the Registrar, Indian Institute of Science, Bangalore, intimating that the actual area proposed to be handed over to the Mysore Government is 19.25 acres and

P.T.O.

not 17.32 acres as shown in the map etc.,for favour of kind information.

Letter No.n3.201 dated the 14th February 1940 from the Registrar, Indian Institute of Science, Bangalore, to the Forest Chemist, Forest Research Laboratory, Bangalore.

With reference to our conversation yesterday, I write to inform you that the actual area proposed to be retransferred to the Mysore Government is 19.25 acres and not 17.32 acres as shown in the map handed to you yesterday. The necessary correction may kindly be made in your copy of the map.

Copies.

Chief Conservator of Forests.

From

General
The ~~Chief~~ Secretary to the Government of His Highness the Maharaja of Mysore.

To

The Registrar,
Indian Institute of Science,
Hebbal, Bangalore.

~~Sir~~,

Retransfer of a portion of the land assigned to the Indian Institute of Science, Bangalore to the Government of Mysore.

Sir,

Adverting to the correspondence ending with your letter No.~~H~~.3/252 dated the 14th February 1940, on the above subject, I am directed to invite reference to Residency letter No.R.F.27-40/G.S.A. dated the 30th April 1940 addressed to the General Secretary to the Government of Mysore, a copy of which is ascertained to have been forwarded to you and to request you to arrange to hand over the land in question to the Chief Conservator of Forests in Mysore, who has been instructed in the matter.

I have the honour to be,
Sir,
Your most obedient servant,

Sd. J. Appaji Gowda,
General Secretary to Government.

R.F.R.3. Memo No. A 76174/xxx Dated, 9th May 1940.

Copy of the above together with a copy of letter No.R.F.27-40/G.S.A. dated the 30th April 1940, from the Secretary to the Hon'ble the Resident in Mysore, is forwarded with compliments, to the Chief Conservator of Forests, for information with reference to his letter No.S2.20-151/39-40 dated 21st February 1940.

By Order,

[illegible]

Letter No.R.F.27-40/G.&.A. dated 30th April 1940, from the Secretary to the Hon'ble the Resident in Mysore, to the General Secretary to the Government of Mysore, Bangalore.

Re-transfer of a portion of land assigned to the Indian Institute of Science, Bangalore, to the Government of Mysore.

I am directed to refer to your letter No.Pol.1141/ Fts.45-39-9, dated the 21st February 1940, and to say that His Excellency the Crown Representative with the concurrer of the Government of India is pleased to sanction the re-transfer to the Government of Mysore of the management and jurisdiction of that piece of land measuring about 19 acre shown in the map received with your letter and forming a ~~part~~ part of the land the management and jurisdiction over whic was ceded to the British Government for the purpose of locating the Indian Institute of Science.

GEN. & REV. 4940 3 AG. I. & FOREST BRANCH.

Re 45-39-1.

Sir,

I have the honour to state that sanction has been obtained for the retransfer to the Government of Mysore of about 19 acres of land belonging to the Indian Institute of Science and originally assigned to them (about the year 1909) by the Government of Mysore, and I have been asked to take charge of the land on behalf of the Government (Vide letter No.A.F.6173/Ft.45-39-12 dated 9th May 1940 from the General Secretary to the Government of Mysore).

The original deeds of assignment are of course not available in this office. I request you to kindly let me know, with reference to these deeds, the legal formalities to be gone through and the documents to be executed before the retransfer is considered to be legally valided and complete. Pending the completion of these formalities, I shall arrange that the actual possession of the land is taken over by the Forest Research Laboratory for whose use the land is intended. I hope this will be in order.

I have the honour to be,
Sir,
Your most obedient servant,

Chief Conservator of Forests.

For Revenue Commissioner.

Draft Notification.

"The boundary of the Indian Institute's land after relinquishment of 19 acres and 10 guntas (nineteen acres and ten guntas) by the Indian Institute of Science in favour of the Government of Mysore is as follows:-

"The boundary line on the East commences from the south-west corner of the compound (wire fence) of the area enclosing the Forest Research Laboratory and runs towards North up to the north-west corner of the aforesaid Research Laboratory compound (wire fence) and then turns towards East along the reserved area of the Indian Institute and thereafter runs North crossing the road leading from the Butts to the Tumkur Road, and joins the feeder channel of the Reservoir just above this Road This channel thereafter becomes the boundary along the remaining portion of the East and along the North and West, till it meets the old Tumkur Road, running behind the Cotton Mills. The boundary to the South is the continuance of the road, along Sankey's Reservoir to the Junction of the present Tumkur Road, and thence along the proposed road to meet the old Tumkur Road."

Notification.

WHEREAS in Notification No.G.5639/G.M. 232-06-9, dated 14th March 1907, the exclusive management of and full jurisdiction over the lands described in the schedule annexed to the said Notification and measuring approximately 371 acres and 16 guntas, required for the purpose of locating the Indian Institute of Science, was assigned to the Governor-General of India in Council with effect from 14th March 1907 for so long as the said lands are used for the purpose aforementioned;

2. WHEREAS ~~His Excellency~~ His Excellency the Crown Representative, with the concurrence of the Government of India, ~~has been pleased to~~ ~~recommended that he has been pleased to~~ retransfer to the Government of His Highness the Maharaja of Mysore the management and jurisdiction over a part of the lands assigned to the Governor-General of India in Council under the said Notification, measuring about 19 acres, and ~~it is necessary to revise and~~ it is hereby accordingly necessary to redescribe the boundaries of the lands specified in the schedule annexed to the said Notification by excluding therefrom the lands retransferred to the Government of His Highness the Maharaja of Mysore.

Now therefore, the Government of His Highness the Maharaja of Mysore are pleased to direct that the following shall be substituted for the schedule annexed to the Notification No. G. 5639/G.M. 232-06-9, dated 14th March 1907, namely —

"

Here enters a description of the new boundaries"

Seen to Govt.

G 14196 & 5/6/43 NOTIFICATION. Gm 146-42-1

WHEREAS in Notification No.G.5639/G.M.232-06-9, dated 14th March 1907, the exclusive management of and full jurisdiction over the lands described in the schedule annexed to the said Notification and measuring approximately 371 acres and 16 guntas, required for the purpose of locating the Indian Institute of Science, was assigned to the Governor-General of India in Council with effect from 14th March 1907 for so long as the said lands are used for the purpose aforementioned;

WHEREAS His Excellency the Crown Representative with the concurrence of the Government of India has been pleased to retransfer to the Government of His Highness the Maharaja of Mysore the management and jurisdiction over a part of the lands assigned to the Governor-General of India in Council under the said Notification, measuring about 19 acres, and whereas it is accordingly necessary to redescribe the boundaries of the lands specified in the schedule annexed to the said Notification by excluding therefrom the lands retransferred to the Government of His Highness the Maharaja.

Now therefore, the Government of His Highness the Maharaja of Mysore are pleased to direct that the following shall be substituted for the schedule annexed to the Notification No.G.5639/G.M.232-06-9 dated 14th March 1907, namely,

Schedule of boundaries of the lands assigned for the Indian Institute of Science.

...

The boundary of the Indian Institute's land after relinquishment of 19 acres and 10 guntas (nineteen acres and

and ten guntas) by the Indian Institute of Science in favour of the Government of Mysore is as follows :-

'The boundary line on the East commences from the south-west corner of the compound (wire fence) of the area enclosing the Forest Research Laboratory and runs towards North up to the north-west corner of the aforesaid Research Laboratory compound (wire fence) and then turns towards East along w the reserved area of the Indian Institute and thereafter runs North crossing the road leading from the Butts to the Tumkur Road, and joins the feeder channel of the Reservoir just above this Road. This channel thereafter becomes the boundary along the remaining portion of the East and along the North and West, till it meets the old Tumkur Road, running behind the Cotton Mills. The boundary to the South is the continuance of the road, along Sankey's Reservoir to the Junction of the present Tumkur Road, and thence along the proposed road to meet the old Tumkur Road.

75

OFFICE OF THE REVENUE COMMISSIONER
IN MYSORE,

No.C10-2124 of 43-44. Bangalore, dated 21st October 1943.

Gen 146-42-4 2359 Gen 504

From

Rajasevaprasakta
M. SESHADRI, Esq., M.A.,
Revenue Commissioner in Mysore,
Bangalore.

To

M. NARASIMHIYA, Esq., B.A., C.E., M.I.E.,
Secretary to Government of Mysore,
P.W., Rly., Elcl., Departments,
Bangalore.

Sir,

Gen 25/10

Dy. Secy with compts 4/ 25/10

Indian Institute of Science, Bangalore - Retransfer of certain lands to the Mysore Government for the Forest Research Laboratory, Bangalore.

With reference to the correspondence ending with your letter No.G.3589 G.M. dated the 15th September 1943, on the above subject, I have the honour to forward herewith seven copies of the map of the Indian Institute of Science showing the extent as reduced by the retransfer.

4 4 h 26/10

2. The Superintendent of Land Records states in his letter No.1222 dated the 24th September 1943 - a copy of which is enclosed, that the extent of the retransferred land mentioned as 19 acres in Government Notification No. G.14196 G.M.146-42-1 dated the 5th June 1943 is not correct and that it should be 21 acres and 32 guntas. He explains that as some doubt was felt as to the extent adopted on the basis of the information furnished by the Forest Department, the measurement work had to be got done afresh. The Director of the Institute, the Chemist and the Mycologist of the Forest Department are stated to have expressed that the land as now demarcated with stones and provided with wire fencing may be taken as the portion to be retransferred whatever may be its area. This area is, by actual measurements effected after fixing the old boundary marks as per original tippan found to be 21 acres and 32 guntas as against 19 acres mentioned in the Government Notification.

3. The circumstances under which the discrepancy arose and the basis on which the measurements and the calculations have now been made are set out in detail in the report dated the 20th September 1943 of the District Survey Officer received as enclosure to the letter of the Superinten

X66

Land Records, Survey and Settlement. It is stated that the boundaries as ~~directed~~ described in the Notification are all right and the correction to be made is only with regard to the extent.

4. The Survey Superintendent has further stated that the lands surrendered may be treated as a separate village by itself and named as the 'Forest Research Laboratary'.

5. In the circumstances, explained, I agree with the Superintendent of Land Records and request that sanction of Government may kindly be obtained to (1) the modification of the Government Notification as regards the extent only and (2) the constitution of the retransferred area into a separate village named 'The Mysore Forest Research Institute'.

6. ~~The~~ One file of records on the subject is enclosed.

I have the honour to be,
Sir,
Your most obedient servant,

M. N. Anandalwar.

Assistant Commissioner,
For Revenue Commissioner,
(Absent on casual leave).

YBR.3.

20/6/44

LETTER NO.1222, dated the 23-24th September 1943, from the Superintendent of Land Records, Survey and Settlement in Mysore, Bangalore.

Retransfer of a portion of the lands assigned to the Indian Institute of Science to the Mysore Government Forest Research Laboratory.

With reference to your memo No.C.5227 of 40-41, dated the 16th June 1942 forwarding a copy of the Notification No.G.14196/G.M.146-42-1 dated 5th June 1943 sent to you and requesting me to send seven copies of the map of the Indian Institute of Science showing the extent as reduced by the above retransfer, I have the honour to enclose herewith seven Ferro-print copies of the map as requested and further to state as follows:-

The extent of the lands retransferred is stated, in the Notification above noted, as 19 acres. This acreage was first given by the Forest Department and some doubt was felt re. its accuracy because that Department had no field maps and other references. In letter No.S2-20-151 of 39-40 dated the 2nd June 1941, from the Conservator of Forests to you, that officer requested you to get the boundaries correctly located. This measurement work has been got done after fixing the missing boundary marks on the basis of the field maps (tippans) and taking measurements to the wire fence provided to the retransferred area. The position of the wire fence exactly corresponds with the description given in the altered schedule noted in the above notification. The District Survey Officer, Bangalore, who conducted the measurement connected with this retransfer states that the Director of the Institute, the Chemist and the Mycologist of the Forest Department expressed that the land, as now demarcated with stones and provided with wire fencing, may be taken as the portion to be retransferred whatever may be its area. According to the measurements now made as above, by this Department the extent of the retransferred area comes to 21 acres and 32 guntas. The area of the lands in possession of the Indian Institute of Science after this retransfer will be 369 acres 8 guntas as shown in the margin.

	A.	G.
Extent of the Institute as per akarband	391	00
Extent now retransfered	21	32
Balance remaining over	369	8

The District Survey Officer, Bangalore, has made a reference to the Forest Department in this connection. No reply has yet been received. It may however be stated that as pointed out by the District Survey Officer the area mentioned formerly is not correct as it was based on an incorrect plan. The District Survey Officer's report explains fully as to how the mistake has occurred. (copy of letter is enclosed).

I am of the opinion that the area as now measured and noted may be treated as the plot made over and that necessary correction may be got incorporated in the Notification to enable the further changes being entered in the survey records.

The portion surrendered to Mysore will be treated as a separate village by itself and Government sanction may be

--

kindly obtained for it. The name of the village may be stated as the Forest Research Laboratory.

The connected-file of records accompanies.

8L

No.102 dated 20th September 1943.

Submitted to the Superintendent for favour of kind perusal.

In continuation of my memo No.80-82/31-8-43 dated 31st August 1943 I beg to submit herewith my final report enclosing the phodi tippan, pakka book, sketch and one copy of the corrected map of the retransferred area from the Institute of Science. The missing old boundary marks were fixed as per original tippan. The area as per chain survey comes to 21 acres 32 guntas.

I waited for a reply from the Forest Department as promised, both by the Forest Mycologist and the Forest Chemist of the Research Laboratory. The concerned authorities of the Forest Department and the Director of the Institute both agreed, that the area might be measured in accordance with the wire fencing, and the trench dug up to the west and north of the retransferred area by the Institute Authorities.

The concerned Forest Authorities were explained that the sketch enclosed was incorrect, and that the area derived by planimeter from an incorrect sketch cannot give correct area.

According to the certified sketch in the file received from the Forest Department, the southern boundary of the retransferred area as per scale, measures only 33 chains, but on the ground when actually measured it is 38 chains.

The northern boundary when scaled off, measures 22¼ chains, but the actual measurement in field is 24 chains 6 annas. The recorded measurement in the certified sketch is 610 feet or 18½ chains.

The western measurement, when scaled off measures 21½ chains on the sketch, but the actual field measurement as per fence is 958 links or 19 chains and 3 annas.

The palnimeter area derived from an obviously incorrect sketch, cannot give correct results. This was pointed out to them.

Both the Director of the Institute and the concerned forest authorities agreed that it might be measured as per wire fencing and the correct area intimated to them. The boundaries are also in accordance with the description in the Government Notification except the extent noted therein.

Subject:— Indian Institute of Science, Bangalore.— Re: transfer of certain lands to the Mysore Govt. for the Forest Research Laboratory, Blore

---

Sir,

With reference to the correspondence ending with your letter No. C.10-2124/43-44 dated 15-11-43 on the above subject, I am directed to invite your attention to the fact that in the copy of letter No 1222 dated 23-24th Sept 1943 of the Supdt. of Land Records, survey and settlement, sent with your letter dated 21-10-43, it is stated that the extent of the re-transferred area comes to 21 acres and 32 guntas, and that the area of the lands in

P.T.O.

possession of the Indian Institute of Science after this retransfer will be 369 acres and 8 guntas. ~~So~~ In the Maps also it is mentioned similarly. As ~~the~~ according to the ~~Notifications~~ dated 14-3-1907 and 5-6-43, the original area of the land assigned to the Governor-General of India in council is stated to be 371 acres and 16 guntas (approximately) and as there seems to be no reference as to the total area of the land being 391 acres in the letter dated 20-9-43 of the D.S.O, Blore, sent with your letter dated 15-11-43, I am to request you to be so good as to state whether the area of the lands in possession of the Institute after the retransfer (~~of~~ of 21 acres and 32 guntas) was also recently measured and found to be 369 acres 8 guntas. If so, I am to enquire whether the alteration in the extent of this ~~should~~ portion of the land should also be not mentioned in the ~~Notifications~~ to be issued

I have etc.

Deputy Secretary.

LETTER NO.2715, dated the 12th January 1944, from the Commissioner for Settlement and Land Records in Mysore, Bangalore, to the Revenue Commissioner in Mysore, Bangalore.

Indian Institute of Science, Bangalore . Re. Transfer of certain lands to the Mysore Government for the Forest Research Laboratory.

--

With reference to your letter No.C.10-2124 dated the 15th December 1943, on the above subject, I have the honour to state as follows:-

. . The total extent is noted in the Notification as approximately 371 acres and 16 guntas. According to akarband the extent of the Institute is 391 acres. Now area receded to the Mysore Government is 21 acres and 32 guntas. Reducing the akarband extent by this area, the area in possession of Indian Institute of Science comes to 369 acres 8 guntas. This portion was not measured now. As both the extent retransferred and that which is in possession of the Institute are mentioned in the Notification No.G.1496/G.M.146-42-1 dated 5th June 1943, the particulars re. these as now corrected will have to be mentioned in the Notification to be issued afresh; but no change in the description of the boundary given in the schedule seems necessary.

PUBLIC WORKS SECRETARIAT.

No. G. 14196—*G.M.* 146-42-1, *dated 5th June* 1943.

Whereas in Notification No. G. 5639-G. M. 232-06-9, dated 14th March 1907, the exclusive management of and full jurisdiction over the lands described in the schedule annexed to the said notification and measuring approximately 371 acres and 16 guntas required for the purpose of locating the Indian Institute of Science, was assigned to the Governor-General of India in Council with effect from 14th March 1907 for so long as the said lands are used for the purpose aforementioned.

Whereas His Excellency the Crown Representative, with the concurrence of the Government of India, has been pleased to retransfer to the Government of His Highness the Maharaja of Mysore the management and jurisdiction over a part of the lands assigned to the Governor-General of India in Council under the said notification, measuring about 19 acres; and whereas it is accordingly necessary to redescribe the boundaries of the lands specified in the schedule annexed to the said notification by excluding therefrom the lands retransferred to the Government of His Highness the Maharaja.

Now, therefore, the Government of His Highness the Maharaja of Mysore are pleased to direct that the following shall be substituted for the schedule annexed to the notification No. G. 5639—G. M. 232-06-9, dated 14th March 1907, namely:—

Schedule of boundaries of the lands assigned for the Indian Institute of Science.

The boundary of the Indian Institute's land after relinquishment of 19 acres and 10 guntas (nineteen acres and ten guntas) by the Indian Institute of Science in favour of the Government of Mysore is as follows:—

No. G. 6961 /G. O. 146-42-8 dt 5/6/44

Notification.

Whereas in Notification No.G.14196/G.M. 146-42-1 dated the 5th June 1943, the schedule annexed to that Notification was ordered to be substituted for the one annexed to Notification No.G5639/G.M.232-06-9 dated the 14th March 1907, as a consequence of the management and jurisdiction over a part of the lands assigned to the Governor-General-in-Council under the latter Notification having been retransferred by His Excellency the Crown Representative to the Government of His Highness the Maharaja of Mysore

Whereas on an accurate measurement of the retransferred extent, it is found that the actual area retransferred is 21 acres and 32 guntas, and not 19 acres and 10 guntas as mentioned in Notification No.G.14196/G.M.146-42-1 dated 5th June 1943; and

Whereas it is accordingly necessary further to redefine the extent and redescribe the boundaries of the lands specified in the schedule annexed to Notification No.G.5639/G.M. 232-06-9 dated the 14th March 1907 by excluding therefrom the actual area of the retransferred land, as now found;

Now therefore, the Government of His Highness the Maharaja are pleased to direct

(i) that the words and figures "21 acres and 32 guntas" shall be substituted for the words and figures "about 19 acres" in para 2 of Notification No.G. 14196/G.M.146-42-1 dated the 5th June 1943, between the words "measuring " and the semi-colon; and

(ii) that the following shall be substituted for the schedule annexed to ~~the~~ Notification No.G.14196/G.M. 146-42-1 dated the 5th June 1943, namely:-

Schedule of Boundaries of the lands assigned for the Indian Institute of Science.

The boundary of the Indian Institute's land after relinquishment of 21 acres and 32 guntas (Twenty-one acres and thirty-two guntas) by ~~of~~ the Indian Institute of Science in favour of the Government of Mysore is as follows:--

"The boundary line on the east commences from the south-west corner of the compound (wire fence) of the area enclosing the Forest Research Laboratory and runs towards north up to the north-west corner of the aforesaid Research Laboratory compound (wire fence) and then turns towards east along the reserved area of the Indian Institute and thereafter runs north crossing the road leading from the Butts to the Tumkur Road, and joins the feeder channel of the Reservoir just above this road. This channel thereafter becomes the boundary along the remaining portion of the east and along the north and west, till it meets the old Tumkur Road, running behind the Cotton Mills. The boundary to the south is the continuance of the road, along Sankey's Reservoir to the junction of the present Tumkur Road, and thence along the proposed road to meet the old Tumkur Road."

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

General and Revenue Secretariat,

No. G.6961/G.S.146-42-8 Dated Bangalore, 5th June 1944.

NOTIFICATION.

Whereas in Notification No.S.14196/G.S.146-42-1 dated the 5th June 1943, the schedule annexed to that Notification was ordered to be substituted for the one annexed to Notification No.S.5639/S.S.232-06-9 dated the 14th March 1907, as a consequence of the management and jurisdiction over a part of the lands assigned to the Governor-General-in-Council under the latter Notification having been retransferred by His Excellency the Crown Representative to the Government of His Highness the Maharaja of Mysore.

Whereas on an accurate measurement of the retransferred extent, it is found that the actual area retransferred is 21 acres and 32 guntas, and not 19 acres and 10 guntas as mentioned in Notification No.S.14196/S.S.146-42-1 dated the 5th June 1943; and

Whereas it is accordingly necessary further to modify the extent and redescribe the boundaries of the lands specified in the schedule annexed to Notification No.S.5639/S.S.232-06-9 dated the 14th March 1907 by excluding therefrom the actual area of the retransferred land, as now found;

Now therefore, the Government of His Highness the Maharaja are pleased to direct,

i. that the words and figures "21 acres and 32 guntas" shall be substituted for the words and figures "about 19 acres" in paragraph two of Notification No. S.14196/S.S.146-42-1 dated the 5th June 1943 between the word "measuring" and the semi-colon; and

ii. that the following shall be substituted for the schedule annexed to Notification No.S.14196/S.S.146-42-1 dated the 5th June 1943, namely:-

Schedule of Boundaries of the lands as leased for the Indian Institute of Science.

The boundary of the Indian Institute's land after the relinquishment of 21 acres and 32 guntas (Twenty-one acres and thirty-two guntas) by the Indian Institute of Science in favour of the Government of Mysore is as follows:-

The boundary line on the west commences from the south-west corner of the compound (wire fence) of the area enclosing the Forest Research Laboratory and runs towards north up to the north-west corner of the aforesaid Research Laboratory compound (wire fence) and then turns

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

General and Revenue Secretariat,

No. G.6961/GM 146-42-8 Dated Bangalore, 5th June 1944.

NOTIFICATION.

Whereas in Notification No.G.14196/G.M.146-42-1 dated the 5th June 1943, the schedule annexed to that Notification was ordered to be substituted for the one annexed to Notification No.G.5639/G.M.232-06-9 dated the 14th March 1907, as a consequence of the management and jurisdiction over a part of the lands assigned to Governor-General-in-Council under the latter Notification having been retransferred by His Excellency the Crown Representative to the Government of His Highness the Maharaja of Mysore.

Whereas on an accurate measurement of the retransferred extent, it is found that the actual area retransferred is 21 acres and 32 guntas, and not 19 acres and 10 guntas as mentioned in Notification No.G.14196/G.M.146-42-1 dated the 5th June 1943; and

Whereas it is accordingly necessary further to redefine the extent and redescribe the boundaries of the lands specified in the schedule annexed to Notification No.G.5639/G.M.232-06-9 dated the 14th March 1907 by excluding therefrom the actual area of the re-transferred land, as now found;

Now therefore, the Government of His Highness the Maharaja are pleased to direct

i. That the words and figures "21 acres and 32 guntas" shall be substituted for the words and figures "about 19 acres" in paragraph two of Notification No.G.14196/G.M.146-42-1 dated the 5th June 1943 between the word "measuring" and the semi-colon; and

ii. That the following shall be substituted for the schedule annexed to Notification No.G.14196/G.M.146-42-1 dated the 5th June 1943, namely:-

Schedule of Boundaries of the lands assigned for the Indian Institute of Science.

The boundary of the Indian Institute's land after the relinquishment of 21 acres and 32 guntas (Twenty-one acres and thirty two guntas) by the Indian Institute of Science in favour of the Government of Mysore is as follows:-

The boundary lines on the east commences from the south-west corner of the compound (wire fence) of the area enclosing the Forest Research Laboratory and runs towards north up to the north-west corner of the aforesaid Research Laboratory compound (wire fence) and then runs towards east along the reserved area of the Indian

Indian Institute and thereafter runs north crossing the road leading from the Butts to the Tumkur Road, and joins the feeder channel of the Reservoirs just above this road. This channel thereafter becomes the boundary along the remaining portion of the east and along the north and west, till it meets the old Tumkur Road, running behind the Cotton Mills. The boundary to to the south is the continuance of the road, along Sankey's Reservoir to the junction of the present Tumkur Road, and thence along the proposed road to meet the old Tumkur Road.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat.

Pol 2557 Encls/GM/146-42-9.

No. Pol 2557 Encls/GM/146-42-9. *Dated Bangalore,* 12th **June 1944.**

FROM

The *Secretary to the Government of His Highness the Maharaja of Mysore.*
General Department.

To

The Secretary to the Hon'ble the Resident in Mysore,
Bangalore.

Sir,

Subject:- Retransfer to the Government of Mysore of a portion of the land assigned to the Indian Institute of Science.

In continuation of this office letter No.Pol.227/G.M.146-42-3 dated 30-7-1943 on the above subject, I am directed to state that the Revenue Commissioner in Mysore, while forwarding copies of the map of the Indian Institute of Science showing the extent as reduced by the retransfer of the assigned land, brought to the notice of Government that the extent of 19 acres mentioned as retransferred in Government Notification No.G.14196/G.M.146-42-1 dated 5-6-1943 is not correct, and that the correct area of the land actually retransferred comes to 21 acres and 32 guntas. He states that the area assigned to the Institute was surveyed and measured in 1927, and that according to the akarband prepared at the time, its extent was 391 acres. As a doubt was felt about the accuracy of the measurement mentioned in the Notification dated 5-6-1943, a fresh measurement of the retransferred land was made after fixing the missing boundary marks on the basis of the field maps and with reference to the wire-fencing enclosing it. It was found that the correct area of the land which the Institute authorities conceded at the time of measurement as having been retransferred and which has the same boundaries as those mentioned in the schedule appended to the Government Notification referred to above, was 21 acres and 32 guntas and not about 19 acres as stated in the said notification. In the result the area in possession of the Indian Institute of Science after the retransfer will be 369 acres, 8 guntas, as noted in the margin.

Extent as per akarband	..	391 acres
Extent transferred	..	21 " 32 guntas
Extent now belonging to the Institute	..	369 " 8 guntas

A necessity therefore arose for issuing a modified notification giving the correct extent of the retransferred area. It was also intimated by the Registrar of the Indian Institute of Science in his letter No.H2.9261 dated 23-3-1944 addressed to the Chief Conservator of Forests in Mysore that the Council of the Institute at a meeting held on 1-2-1944 had agreed to the actual area of the retransferred land being computed as 21 acres and 32 guntas. Government have accordingly issued a revised Notification (No.G.6961/G.M.146-42-8 dated 5-6-1944) of which a copy is enclosed. Two copies of the map showing the area of the Indian Institut of Science as reduced by the present retransfer of 21 acres and 32 guntas are sent herewith.

I have the honour to be,
Sir,
Your most obedient servant,

(File Copy).
